Caring for your Eezee Roll-Up

By following a few basic tips you will prolong the life of your eeZee roll up:

- Please read instructions carefully on carry bag before setting up for the first time
- Wipe down your roll up banner with Sunlight liquid and a wet cloth should it become dirty.
- When packing away your roll up stand, NEVER UN-HOOK the graphic from the top and LET IT DROP! This can damage the powerful spring mechanism in the base. THIS IS NOT A WARRANTY ISSUE! Carefully lower the banner manually into the base.
- Never fold or bend the graphic as permanent creasing causes damage to the substrate.
